

INVITE: Understand changes to your estates

A series of regional seminars explaining the impact that Design Quality Indicators (DQI) and Building Information Modelling (BIM) will have on your projects going forward.

BIRMINGHAM

Wednesday 8th July 2015, 9:00 – 13:30

Venue: The Studio, 7 Cannon Street, Birmingham, B2 5EP

Seminar Agenda

- 9.00 Registration and networking
- 9:30 Welcome – Andrew Link, COO for Construction Industry Council & Phil Smith, Senior Estates Advisor for NHS England
- 9:45 James Chapman Architect, Emeritus Professor Manchester School of Architecture, DQI Facilitator, will talk about the importance of DQI and experiences on health projects
- 10:30 Ralf Mosler, AEC Business Development Manager of Autodesk will provide further information on delivering BIM in Healthcare.
- **Short Break**
- 11:15 David Kershaw, Programme Director for P21+ & Pat Pemberton, Healthcare Consultant, Interserve; How NHS Trusts are improving Patient outcomes whilst reducing the cost of construction through use of Repeatable Rooms and Standard Components – delivered consistently via BIM and an innovative iPad application.
- 12:00 Discussion and Q&A
- 12:30 Complementary lunch & 1 to 1 support
- 13:30 Close

1 to 1 Support

During lunch experts from DQI and BIM will be on hand to answer any questions you have about how to prepare your projects and teams for these changes and to discuss what your specific next steps should be.

R.S.V.P.
